

# STAUFF Universal Accumulator Charging Kit with Nitrogen Regulator

## Product Description

STAUFF's universal accumulator charging kit with nitrogen regulator is an essential instrument for the verification, pressurisation and gas bleeding of hydraulic accumulators, suitable for most common bladder and diaphragm accumulators.

The addition of a nitrogen gas regulator to the universal charging kit allows the user to control the pressure and incoming gas flow from the nitrogen cylinder or bank of cylinders. The dual gauge allows visual control of both the inlet and outlet pressure, which is important when pre-charging hydraulic accumulators to initially slowly charge accumulators to reduce damage or failure of the bladder / diaphragm.

## Charging Kit Contents

- 1 x Charging head for testing and pressurising (swivel connection M28x1.5)
- 5 x Charging adaptors in various sizes
- 1 x Safety pattern pressure gauge 0-100 bar (0-1450) PSI
- 1 x Safety pattern pressure gauge 0-250 bar (0-3625) PSI
- 1 x High-pressure gas hose (2000 mm long) for connecting to a nitrogen gas source - SKK-20-1/4" BSPP female
- 1 x Robust hard plastic material case with carry handle, locking latches and oil resistant foam
- 1 x STAUFF nitrogen gas regulator fitted with type 51 adaptor connection
- 1 x Type 50 gas bottle adaptor
- 1 x Safety goggles
- 1 x Hex key 6mm

Item No:

**6100319983**

Item Designation:

**STA-CK-250/100S-G-HA21-A1-A1-R1**

## INTRODUCTORY SPECIAL

# \$1,500.00 PER KIT

RRP: \$3,201.00

**Valid until 31st May 2025 or until stock is sold**

Terms and Conditions: For account customers only. All sales are final - special items are not returnable for credit. Subject to GST.
